

Why bears? - Za što medvjedi?

I am pleased to present my latest works in this very special exhibition. For me the Medvednica mountain range behind Zagreb has conjured up bears ('medvjed' in Croatian) since I first arrived in 2008. Over the last four years I have walked on Sljeme, picnicked in Medvedgrad and paid my respects to the bears of Maksimir zoo more times than I can count. The 'Bears of Medvednica' represent the heart of my time in Zagreb - a reminder of the mountains when I wander in the city and a welcoming spirit as I drive below Medvedgrad each day. Bringing the bears of my imagination to life in these paintings has been a deeply satisfying experience and I hope that you will enjoy them.

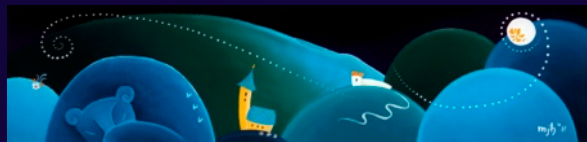

Za što medvjedi? - Why bears?

Drago mi je prezentirati moja najnovija djela u ovoj vrlo posebnoj izložbi. Otkad sam prvi put došla (ovamo) 2008. g. za mene je Medvednica, gorje iznad Zagreba, evocirala medvjede. Tijekom posljednje četiri godine odlazila sam u šetnje na Sljeme, piknik-izlete na Medvedgrad i iskazala svoje poštovanje prema medvjedima u Maksimir zoo više puta nego što mogu računati. 'Medvjedi Medvednice' predstavljaju srce mojeg vremena u Zagrebu - podsjetnik na planine dok sam lutala gradom i dobrodošao duh dok sam vozila ispod Medvedgrada svaki dan. Oživljavanje medvjeda iz moje mašte u ovim slikama je bilo duboko zadovoljavajuće iskustvo i nadam se da ćete uživati u njima.
